Apple CarPlay

[KW-V820BT]

CarPlay takes the things you want to do with your iPhone and puts them on the big screen. Things get even better with a JVC multimedia receiver — simply talk to Siri or touch the receiver's display and get directions from Apple Map, make phone calls, listen to voicemail, send and receive texts, and listen to music all in a way that allows you to stay focused on the road.

Note: Apple CarPlay is available with iPhone 6 Plus, iPhone 6, iPhone 6s, iPhone 6s Plus, iPhone 5s, iPhone 5c or iPhone 5 with iOS 7.1 or newer

6.8" Clear Resistive Touch Panel (6.2" WVGA Monitor)

[KW-V820BT/V620BT/V320BT]

Larger Display with El Kameleon Concept

JVC's new multimedia models with 6.8" Clear Resistive Touch Panel features a dedicated Touch Control Key area and a high-resolution WVGA display. El Kameleon minimalist design turns the entire face of the unit black when the ignition is turned off, so it meshes seamlessly with the interior. Turn it back on and the high-visibility 6.8" display reappears like magic with images you'll want to see.

Face plate fades into the shadows when ignition is turned off.

Touch Control Keys

WVGA Display

Clear Resistive Touch Panel with Easy-to-see GUI

The clear resistive touch panel with high-transparency and high-luminance makes icons easy to see and functions easy to use. Enjoy intuitive operation thanks to the easy-to-use GUI design with large key layout.

iDataLink Maestro – Advanced Vehicle Integration

[KW-V820BT/V620BT/V420BT/V320BT]

iDataLink Maestro RR (sold separately) enables to retain factory steering wheel audio controls & factory amplifier, and can even display the vehicle information (performance data, climate controls, battery voltage etc) on the JVC receiver.

Gauges

Climate Control

Parking Assist

Vehicle Information

*Available features may vary depending on the vehicle. The iDataLink Maestro RR is sold separately by Automotive Data. To find an authorized dealer please visit <http://maestro.idatalink.com/>

- 13-Band Graphic EQ
- Steering Remote Ready

KW-V220BT 6.2" WVGA
 DVD/CD/USB Receiver with 6.2-inch WVGA Touch Panel Monitor and Built-in Bluetooth® Wireless Technology

Wired MIC included Bluetooth®

WORKS WITH **PANDORA** **SiriusXM** READY **K2 TECHNOLOGY**

Supports Apple Music

- Music Playback via USB
- 2 Phones Full-Time Connection
- BT Automatic Pairing
- Siri CALL Eyes Free
- USB 15W Charging
- High Voltage 3 pre-out 4.0V
- Rear View Camera Ready
- 13-Band Graphic EQ
- Steering Remote Ready

iPhone®/Android™ Bluetooth Automatic Pairing

Just connect your iPhone or Android device* via USB and the automatic Bluetooth pairing function will work to complete the pairing. No complicated manual procedure to worry about.

2 Phones Full-Time Connection

[KW-V820BT/V420BT/V320BT/V220BT]

You can connect two phones full time via Bluetooth, with secure and simple pairing. Calls to either phone can be received by a push of a key on the headunit.

*JVC Music Play application is required.
 iPhone only for KW-V820BT/V620BT.

All models except KD-AV31 are compatible with iPod/iPhone.

Bluetooth Voice Recognition

Siri Eyes Free Mode for iPod/iPhone

Allows access to the Siri voice-activated personal assistant while keeping your hands on the steering wheel and eyes on the road. No need to touch your iPhone to play back stored music or make calls to registered numbers.

Improved Sound Quality with HFP 1.6 Wideband Speech

Improved sound quality thanks to HD Voice contributes to a higher level of voice recognition accuracy.

Bluetooth AVRCP1.5 for Versatile Song Selection

In addition to repeat and random playback of music files, you can also easily search for songs using the browsing function. Just look for and choose the song you want to hear from the folder name and song name lists.

Android™ Music Playback via USB (AUTO MODE/AUDIO MODE) [KW-V420BT/V320BT/V220BT]

Simply connect your Android smartphone or tablet to the receiver via USB and enjoy a totally "plug and play" music playback solution. The Android Open Accessory Protocol (AOA2) is supported so absolutely no preparation or set-up is necessary – just plug it in and it's ready to play audio files stored on your Android device in what's called "AUDIO MODE". Or, by installing the free JVC Music Play app available on Google Play, you'll be able to access "AUTO MODE" for added functionality including Folder Up & Down, and Search Artist/Album/Song.

Internet Radio & Digital Radio

Pandora Radio Control (Android™/iPhone®)

Listen to Pandora Radio from your smartphone with smooth control on the headunit via USB or Bluetooth connection for iPhone, and via Bluetooth for Android devices.

SiriusXM Ready

All Multimedia Receivers are ready for SiriusXM Radio. You can listen to over 100 Channels of music, sports, and entertainment.

Monitor Touch Control

Just touch and move your finger over the screen for various operations corresponding to your finger movements. Intuitive control provides safer operation for in-car entertainment.

Music Control: Folder Up/Down, Skip Back/Forward

Volume Adjust: Circular

High Current 1.5A Charging

Rapidly charge your Android smartphone using the USB port, with up to a maximum of 1.5A.

Multilingual Display (17 Languages)

JVC Multimedia Receivers feature a Multilingual Display selectable in English, Spanish, French, German, Italian, Dutch, Russian, Portuguese, Simplified Chinese, Traditional Chinese, Thai, Turkish, Arabic, Persian, Hebrew, Malay, and Indonesian.

Sound Optimization

From advanced technologies that enable playback of premium High-Resolution Audio sources, to the vast array of sound adjustment functions to fine-tune and customize the acoustics exactly the way you want — count on JVC to deliver the music to your ears.

High-Resolution Audio Playback

[KW-V820BT]

You can enjoy playback of 96kHz/24bit audio which contains about 3 times the musical information of music CDs (44.1kHz/16bit), or even 192kHz/24bit High-Resolution Audio files with their approx. 6.5 times data volume. With high sound quality approaching the original master recording itself, you will experience the presence and ambience of a tune the way CD simply cannot.

*The product with this logo is conformed to High-Resolution Audio standard defined by Japan Audio Society. This logo is used under license from Japan Audio Society.

K2 Technology for Enhanced Digital Sound Quality

[KW-V820BT/V420BT/V320BT/V220BT]

K2 is a JVCKENWOOD's original technology that reproduces the original master sound by expanding the bit rate and frequency range. K2 is compatible with all sources including CD. For example, K2 will expand the digital data of the audio CD recorded at 44.1kHz/16 bit to 48 kHz/24 bit, and recreate the high-frequency range above 20kHz that is cut during the CD formatting.

Time Alignment

[KW-V820BT/V420BT/V320BT/V220BT]

By selecting the speaker type and the distance to the center of the listening position, the head unit will automatically adjust the timing of the sound output from each of the speakers so that the sound from each of the speakers will arrive exactly at the same time to the listening position.

Sound Lift

[KW-V820BT/V420BT/V320BT/V220BT]

Virtually manipulate the height of the speakers by adjusting the sound frequencies.

Sound Response

[KW-V820BT/V420BT/V320BT/V220BT]

This function boosts the low frequencies which can be lost during compression to MP3, WMA or AAC.

Space Enhancement

[KW-V820BT/V420BT/V320BT/V220BT]

Space Enhancement is a virtual surround technology using 2 speakers. Just select the vehicle size, and the head unit automatically adjusts the sound effectively.

Volume Link EQ

[KW-V820BT/V420BT/V320BT/V220BT]

Volume Link EQ boosts specific frequencies in the audio signal to compensate for the impact of road noise. It boosts frequencies in the music that are affected by road noise.

13-Band Equalizer

[KW-V820BT/V420BT/V320BT/V220BT]

Use the 13-Band Equalizer to manually adjust the sound to your taste.

Please visit the JVC Support Site for further information including firmware update.

All models are compatible with iPod/iPhone.

Android™ Music Playback via USB (AUTO MODE/AUDIO MODE)

Simply connect your Android smartphone or tablet to the receiver via USB and enjoy a totally “plug and play” music playback solution. The Android Open Accessory Protocol (AOA2) is supported so absolutely no preparation or set-up is necessary – just plug it in and it’s ready to play audio files stored on your Android device in what’s called “AUDIO MODE”. Or, by installing the free JVC Music Play app available on Google Play, you’ll be able to access “AUTO MODE” for added functionality including Folder Up & Down, and Search Artist/Album/Song.

iPhone®/Android™ Bluetooth Automatic Pairing [Bluetooth Models*]

Just connect your iPhone or Android device* via USB and the automatic Bluetooth pairing function will work to complete the pairing. No complicated manual procedure to worry about.

2 Phones Full-Time Connection [Bluetooth Models]

[Bluetooth Models]

You can connect two phones full time via Bluetooth, with secure and simple pairing. Calls to either phone can be received by a push of a key on the headunit.

Bluetooth Hands-Free Profile 1.6

HPF 1.6 Wideband Speech is supported, so you can now enjoy hands-free phoning convenience together with higher voice quality and improved noise reduction.

Versatile Sound Adjustment Features

K2 Technology

K2 reproduces the original master sound by expanding the bit rate and frequency range. K2 is compatible with all sources, including CD where 44.1kHz/16 bit recordings are expanded to 48 kHz/24 bit to restore the high-frequency range that is cut during the CD formatting.

Sound Lift

Virtually manipulate the height of the speakers by adjusting the sound frequencies.

Sound Response

Boosts the low frequencies which can be lost during compression to MP3 or WMA.

Internet Radio & Digital Radio

Pandora/iHeartRadio Control (Android™/iPhone®)

Listen to Pandora and iHeartRadio from your smartphone with smooth control on the headunit via USB or Bluetooth connection for iPhone, and via Bluetooth for Android devices.

SiriusXM Ready

You can listen to over 100 Channels of music, sports, and entertainment.

High Current 1.5A Charging

Rapidly charge your Android smartphone using the USB port, with up to a maximum of 1.5A.

3-Zone Variable-Color Illumination

You can mix the front panel illumination using 32 colors, separated into 3 zones. 50 preset patterns are available for easy customization.

VA LCD for High Contrast Clear Display

All CD and DMR models are equipped with VA (Vertical Alignment) LCD panels that offer higher contrast than typical TN type LCDs. Higher contrast results in sharper images, and with a broader angle of view it provides better overall visibility too.

Spanish Menu

On-screen display menu now available in Spanish. Helpful for more users.

Space Enhancement

A virtual surround technology using 2 speakers. Just select the vehicle size, and the head unit automatically adjusts the sound effectively.

Volume Link EQ

Boosts specific frequencies in the audio signal to compensate for the impact of road noise. It boosts frequencies in the music that are affected by road noise.

13-Band Equalizer

Use the 13-Band Equalizer to manually adjust the sound to your taste.

Sense Every Sound, Feel Every Beat

DR Series Speakers

Carbon Mica Cone

Robust and lightweight carbon mica material provides highly responsive, clear and undistorted reproduction.

Balanced Neodymium Tweeter

Provides detailed high range and smooth mid range. Installable vehicle types are greatly increased thanks to its shorter height.

Wide Opening Grill

Grill's opening ratio is 30% wider than the conventional model, enabling increased durability and clear sound.

Hybrid Surround

Rubber Coated Cloth with increased mobility enables high efficiency and improved follow-up to audio signals.

Small-Design Tweeter Cover

Newly developed small cover significantly reduces areas that interfere with the woofer cone. High-quality sound is assured.

DR Series Amplifiers

• **Toroidal Transformer**
Stable power supply is assured thanks to a large-size toroidal transformer. Its high winding density and low flux leakage improves conversion efficiency of the power. The result is natural and powerful music playback throughout the volume range.

• Enhanced GND

KS-DR3001D/DR3005D offers a copper plate for the ground. Its low resistance value reduces loss of voltage to deliver clear sound with less distortion.

• Speaker-level Inputs for Easy Installation

DR Series amplifiers feature speaker level inputs with Auto Turn-on function. Installation is possible without having to detach the headunit.

AX5 Series Amplifiers

• One Side Wiring • Detachable Side Covers • RCA & Speaker Inputs

KS-AX5101D
Digital Mono Class-D Power Amplifier

KS-AX5102
2-Channel Power Amplifier

KS-AX5104
4-Channel Power Amplifier

	KS-AX5101D	KS-AX5102	KS-AX5104
Type	Class-D	Class-AB	Class-AB
Channels	Mono	2-ch	4-ch
Max Power	1000W	600W	1000W
RMS Power (2Ω)	500W x 1	150W x 2	100W x 4
RMS Power (4Ω)	300W x 1	100W x 2	70W x 4
Bridged (4Ω)	-	300W x 1	200W x 2
Frequency Response	20Hz - 200Hz	5Hz - 50kHz	5Hz - 50kHz

ZX Series Speakers

• Carbon Mica 3D Cone Woofer • Rubber Surround
